Dues shall be payable on the first day of January. Members in arrears on the first day of March shall forfeit membership. Individuals who have been dropped because of nonpayment of dues may be reinstated upon payment of current dues.

Student members who qualify for voting membership during the calendar year may advance to the membership grade without additional dues for the remainder of the year. Members of any grade joining the Society during the calendar year will pay full dues for the year in which they join.

VIII. Executive Director

An executive director may be appointed at the discretion of the Executive Board. The executive director shall serve for a length of time and at a salary to be determined by the Executive Board.

The executive director shall be responsible for maintaining the business office at the Society headquarters.

The executive director shall be the registered agent for the Society as described in Section 181.08 of the Wisconsin Nonstock Corporation Law relating to Domestic Nonstock Corporations (1959).

The executive director is authorized to receive funds and sign checks for the expenditure of Society funds as directed by the elected officers of the Society.

IX. Chapters

A. In the formation of a chapter, the membership of the

Membership Committee.

III. Requirements of International Developing Country membership

- A. A member shall be from a "qualifying " country as recognized by SWST. Member should have the same requirements for membership as listed in Article II above. Note: Developing Country Memberships include electronic access to publications only. No hard copies.

IV. Requirements for student membership

A student member shall be an undergraduate or graduate student currently enrolled in a qualified college, university, or scientific school.

V. Change of membership status

- A. Membership of any classification may be terminated by (1) voluntary resignation or (2) failure to pay dues for the fiscal year.
- B. Student membership is automatically terminated upon termination of full-time enrollment in a curriculum.

VI. Standing committees

Committees will be appointed by the Executive Board and are listed in the Committee Handbook.

VII. Dues

Dues shall be set yearly by the Executive Board.

Revised 1/08

ABOUT SWST

Wood science originated in ancient Greece with the philosopher and writer Theophrastus (327-287 BC) who first wrote about the nature of wood and its uses.¹ Wood Science and Technology as a discrete academic and professional discipline appeared among the earliest North American forestry education programs in the 1890s. The U.S. Federal government made considerable research investments in wood science through two world wars which laid the foundation for post war expansion in interest and attention on wood as a material. Wood science education programs multiplied in the late 1940s and early 1950s, but there was no curricular consistency or common foundation in those programs.

The Society of American Foresters first served as a forum and professional home for wood scientists. However, as interest and the number of new wood scientists grew, a new home was needed. The Forest Products Research Society was formed in 1947 and began to serve as the new home for wood-use professionals. The FPRS-Education Committee, established in 1950, played a major role in the definition and direction of education in wood science and technology and sowed the seeds for the origin of SWST.² By 1957, a nucleus of eminent

¹ Tsoumis, G. 1995. The beginning of wood science. *J. Inst. Wood Science*, 13(6):535-538.

² Fleischer, H.O. and A.N. Foulger, 1983. A Brief History of the Society of

wood scientists and wood technologists began discussing ways to meet their needs for a professional identity and professional society.

In 1958, SWST was born as a professional society, separate from FPRS, but closely linked through organization and membership. Through the years SWST has matured into a well-respected international society with the following objectives:

- Develop and maintain the unique body of knowledge distinctive to wood science lignocellulosic materials and their technologies
- Encourage the communication and use of this knowledge
- Promote policies and procedures which assure the wise use of wood and lignocellulosic materials
- Assure high standards for professional performance of wood scientists and technologists
- Foster educational programs at all levels of wood science, lignocellulosic materials and their Technologies and furthering the quality of such programs
- Represent the profession in public policy development

VISION: Be the leader in advancing the profession of wood science.

MISSION: Provide service to SWST members; develop, maintain, and promulgate the educational, scientific, and ethical standards that define the profession; advocate the socially responsible production and use of wood and lignocellulosic materials.

Wood Science and Technology, the First Twenty-Five Years, SWST, Madison, WI.

Graduates of accredited colleges or universities whose formal education does not include all of the areas specified under II.A above may receive credit applicable to membership eligibility as follows:

1. If deficiencies exist in one of the wood sciences (biology of wood, physics and chemistry of wood, or wood engineering), credit earned in advanced courses in related general sciences (biology, physics, chemistry, or engineering) may be substituted for such courses.

Creditable substitute courses will be only those over and above the foundation courses listed in II.A.3.

2. In areas of specialization (II.A.3.b.(2)), work experience in a responsible technical position may be substituted for education in the corresponding area.
3. The applicant must furnish an official (college) transcript for all coursework to be considered in evaluating the membership application if requested to do so by the Membership Committee.

C. An applicant also may qualify for professional membership provided both of the following requirements are satisfied:

1. A Bachelor's or higher degree in a fundamental or other discipline related to the broad field of wood science and technology (as judged appropriate by the Membership Committee) awarded by a qualified college or university.
2. At least two years of employment related to the wood industry, or in the field of wood science and technology, in a responsible technical position as judged by the

includes such courses as wood chemistry, wood-fluid relations, and the physical properties of wood.

(c) Wood engineering. Studies of the mechanical properties of wood must be included. Additional courses may be in such areas as engineering design of wood structures, engineering principles of wood processing, etc.

(2) A meaningful program of study involving at least two or more of the following areas of concentration or specialization:

(a) Basic sciences and wood science. Additional studies in basic sciences and/or wood science including research methods and techniques beyond the requirements specified in II.A.3 and II.A.3.b.

(b) Wood technology. Technological applications of wood science; wood processing, including drying, preservation, machining, gluing, and finishing of wood.

(c) Pulp and paper technology. The pulping of wood and conversion to fiber products; technology of fibers and paper products.

(d) Forestry and wood utilization. The production, distribution, and economics of wood and wood-based products.

(e) Industrial engineering and business, industrial administration, including accounting, quality control, and business management.

B. Qualification for professional membership through substitution for deficiencies in formal courses.

CODE OF ETHICS

These canons are adopted by the Society of Wood Science and Technology to guide the professional conduct of members of the Society in their relations with the public, their employers, and each other. Compliance with these canons helps to assure just and honorable professional and human relationships, mutual confidence and respect, and competent service to society. (Adopted June 1993)

CANONS

1. Members will strive to protect the safety, health and welfare of the public in the performance of professional assignments.

2. Members will inform the public truthfully about wood, the wood-based industries, and the profession of wood technology, and will discourage misrepresentation.

3. Members will base public statements, including those made as an expert witness, on knowledge or honest opinion and will indicate sources of information when necessary. Furthermore, the member will indicate on whose behalf the statements are made.

4. Members will support the conservative use of natural resources and will strive for increased efficiency within the industry.

5. Members must avoid conflicts of interest and will inform an employer of possible conflicts with vendors, contractors or

consulting clients, and will avoid double payment for the same service.

6. Members will not disclose the business affairs or processes of present or past employers without proper consent.

7. Members will perform only those services for which they are qualified. Members will engage, or advise employers to engage, other experts and specialists in Wood Science and Technology or related fields whenever the employer's interest would be best served by such action, and members will work cooperatively with other professionals.

8. Members who become aware of activities which deviate from accepted professional standards must advise the appropriate people of the consequences of such deviation.

9. Members will support the profession by sharing information and experiences with other members through attendance at technical meetings, publication, participation in SWST affairs and cooperation with educators.

10. Members will properly assign credit for original work and will give credit for the methods, ideas or assistance obtained from others.

11. Members in competition for supplying services will encourage the prospective employer to base selection on comparison of qualifications and negotiation of fee or salary. A member will not endeavor to supplant another known to have been engaged.

12. Members will not by false statement or dishonest action injure the reputation or professional associations of other members.

nature of wood and its behavior under stress.

General requirements for professional membership are specified in Article III of the Constitution. An application is required for any level of membership. All applications must be examined and approved by the Membership Committee.

Specific requirements may be met in the following alternative ways:

A. Qualification for professional membership through formal education.

1. The Bachelor of Science from a SWST-accredited program is sufficient qualification for professional membership. Evidence of the degree must be submitted to the Membership Committee.

2. Specialization in the field of Wood Science and Technology or Forest Products is defined as a course of study that includes the following elements:

a. Required background courses (basic sciences) are:

(1) A foundation in mathematics

(2) Chemistry

(3) General physics.

(4) Biological science.

b. Requirements in Wood Science are as follows:

(1) A minimum background in Wood Science, including:

(a) Biology of wood. Studies of anatomical structure and identification of wood must be included. Additional courses may be in such areas as forest products pathology, wood microtechnique, etc.

(b) Physics and chemistry of wood. This area

is encouraged in order to assist the parent organization to further the purpose and objectives embodied in Article II.

Section 2. Any group of fully accredited members can form a chapter of the Society upon approval of the Executive Board.

Section 3. A chair, elected for 1 year, shall head each chapter. Other officers may be elected if the chapter members so desire.

Section 4. Chapters shall not make statements of policy. This right is reserved for the parent organization. They shall, however, be empowered to recommend policy to the Executive Board.

BYLAWS OF SOCIETY OF WOOD SCIENCE AND TECHNOLOGY

I. The official headquarters of the Society shall be in Madison, Wisconsin.

II. Requirements for Membership

The basic requirement for professional membership is competence in the field of wood science and technology as defined below. An applicant for professional membership should possess a substantial understanding of wood as a material within the following framework:

The biological origin and nature of wood, including macroscopic, microscopic, and submicroscopic anatomy, and relationships between wood and associated micro-organisms; the chemical nature of wood and its components, including cellulose, lignin, and hemicelluloses, and extractive materials; the physical nature of wood, including wood-liquid relationships and the behavior of wood in response to variations in its physical environment; the mechanical

HOW THE SOCIETY IS ORGANIZED

Like most professional societies the activities and success of SWST depend on the energy and interests of its members. The Constitution of the Society (see Appendix) proscribes most of the SWST governing structure, supplemented by the Bylaws. In overview, the **Executive Board** is the governing body of SWST, with most member and Society activities flowing out of an extensive set of **Committees**. This is evident in the Organizational Chart which outlines the structure and function of the Society.

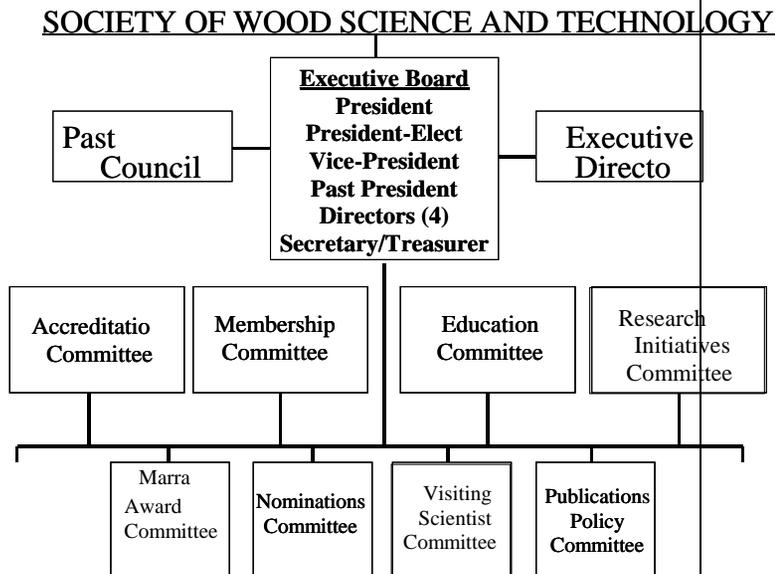

EXECUTIVE BOARD

President, President-elect, Vice President, Past President: The President of SWST is first elected for a one year term as Vice-President, then moves without election through terms as President-elect and President. This structure allows for continuity of leadership and for the President to be able to hit the ground running during his or her term. The Past President remains an active member of the Executive Board to further ensure continuity and follow-up with ongoing projects. The VP is responsible for filling committee assignments and the President-elect is tasked with one of the Technical Sessions of the Annual Convention. VP takes lead, with President and President-Elect, in organizing one of the other Technical Sessions. A list of all the presidents of SWST and their terms is in the Appendix.

Secretary-Treasurer: Is appointed by the Executive Board and is responsible for collecting dues, maintaining the books, and all necessary clerical and administrative functions of the Society. In recent years, the Executive Director has been appointed Secretary-Treasurer.

Executive Director: An appointed Executive Director serves the Board by maintaining the business function of the Society and the Society Headquarters in Madison, Wisconsin. The Executive Director also has "other duties as assigned" by the Executive Board.

Directors: Four members are elected as Directors for two year terms each. Their terms are staggered so that two new Directors are elected annually. Each Director is assigned responsibility to monitor and liaison with selected committees or Society functions.

Committees

Section 1. The fiscal year shall begin on January 1 and end on December 31.

Section 2. The financial records of the secretary-treasurer shall be audited by a committee appointed by the president prior to each annual meeting and a summary statement thereof shall be submitted to the membership.

Article XI -- Adoption of the Constitution

The constitution of January 1, 1960, was ratified by a majority of the voting members.

The amendments to Article II and XI were ratified on August 16, 1962.

The amendments to Article I were ratified on August 16, 1962.

The addition of Article XII was ratified on October 2, 1967.

The amendments to Article III were ratified on August 31, 1970.

The changes in the Bylaws were ratified on July 11, 1976.

The amendments to Article II were ratified on October 27, 1977.

The changes to the Bylaws were ratified on July 8, 1979.

The amendments to Article II and changes to the Bylaws were ratified on June 20, 1982.

The changes to the Bylaws were ratified on June 15, 1984.

The amendments to Article VI were ratified on June 23, 1991.

The amendment to Article III and changes to the Bylaws were ratified on June 21, 1992.

The changes to the Bylaws were ratified on June 20, 1993.

The amendment to Article III and changes to the Bylaws were ratified on June 23, 1996.

The amendments to Article VI were ratified on June 21, 1998.

The amendments to Article III were ratified on June 24, 2001.

Article XII -- Chapters

Section 1. The establishment of local chapters of the Society

Article VII -- Meetings

The Society shall meet annually at such time and place as determined by the Executive Board.

Article VIII -- Amendments

Section 1. Proposed amendments to the constitution may be submitted to the Executive Board by petition of at least 10 percent of the voting members or they may be initiated by the Executive Board.

Section 2. The Executive Board shall distribute the proposed constitutional amendment among the members at least 30 days prior to the beginning of an annual meeting, at which the proposal shall be approved, modified, or disapproved.

Section 3. The amendment as approved at the meeting shall be submitted to the voting members for letter ballot within 30 days after the meeting and shall be adopted if approved by a majority of members voting within 30 days.

Article IX -- Bylaws

Section 1. Such bylaws as are required for the orderly conduct of business may be proposed by any member of the board.

Section 2. Deletions of, or amendments to, existing bylaws may be proposed by any member of the board.

Section 3. Suggestions of bylaw changes made by any voting member shall be considered by the board.

Section 4. Adoption of, or amendments to, bylaws may be ratified by either (1) a majority of members at an annual meeting or of votes cast in a mail ballot, or (2) by a majority of Executive Board members.

Article X -- Fiscal Year and Financial Records

Accreditation: This committee coordinates and conducts reviews of University programs who desire SWST accreditation. They review and comment on accreditation actions and recommend changes in SWST accreditation standards and procedures to the Executive Board. The *Standards and Procedures for Accreditation* are published by the Society and are available from the Executive Director.

Education: Charged with enhancing the education of members and encouraging quality student education in Wood Science and Technology. This Committee promotes the profession to new students, develops teaching materials and solicits state-of-the-art papers for *Wood and Fiber Science*. The group sponsors and runs a Student Poster Competition at the Annual Convention which encourages better student participation and recognizes quality student research.

Marra Award: Selects the winners of the annual George Marra award to recognize excellence in research and writing. Members serve one year and represent government, private sector and academe.

Membership: Helps increase membership in the Society, reviews applications when needed and periodically surveys members about the quality and extent of services that SWST provides.

Nominations: Nominates Vice-president and Director candidates for annual election.

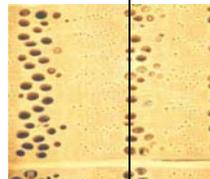

Past Presidents Council: Comprised of all of the living past presidents of the Society. They provide advice and counsel to the Executive Board and annually recommend candidates for the SWST Distinguished Service Award and Fellow Award.

Policy and Critical Issues: This committee looks for emerging issues as well as concerns of the Society, the profession and members. They identify and analyze issues and recommend policy statements to the Executive Board. The committee prepares position statements with regard to world-wide academic, governmental, industrial and/or public issues which may have significant effects on the use of wood as a material. Examples of their work are found on the webpage at www.swst.org/policy2.html

Publications Policy: Advises Executive Board on policy matters related to all Society publications

Research Initiatives: The committee shall be responsible for representing the society and its members at the national level on research initiatives and funding opportunities that may benefit from a wood research perspective. The committee may identify and pursue critical areas or may respond to request for input from within the membership of the Society

Visiting Scientist: Promotes and manages the Society Visiting Scientist Program which financially helps scientists visit

institutions and organizations around the world.

MEMBERSHIP

The basic requirement for membership is professional competence in the field of Wood Science and Technology.

meeting. Balloting will be closed 30 days after ballots are mailed.

Section 5. The nominee for each office receiving a plurality of votes cast for the office shall be elected. Elected officers shall assume the duties of their office at the close of business of the annual meeting following their election, except as stated in Section 8.

Section 6. The immediate past president shall be a member of the Executive Board without election.

Section 7. The president shall hold office for 1 year and shall not succeed to a second term.

Section 8. The president-elect shall be advanced to president without election. Similarly, the vice-president shall be advanced to president-elect without election.

Section 9. If the presidency is vacated, the duties of the president shall be performed by the president-elect, who will advance to the presidency in the normal manner at the end of the term as president-elect.

Section 10. If the office of president-elect is vacated, the duties of the president-elect shall be performed by the vice-president, who will advance to the presidency without election at the end of the term as vice-president. A president-elect and a vice-president will be elected at the next election. If the office of vice-president is vacated, it shall remain vacant until the next election, at which time both a president-elect and a vice-president will be elected.

Section 11. If a vacancy occurs in any other office, the Executive Board shall appoint a successor to complete the term of office.

Section 12. The directors shall be elected for 2-year terms and these terms shall be staggered so that two new directors are elected annually.

Section 13. No member shall hold two elective offices simultaneously.

Article V -- Officers

Section 1. The governing body shall be an Executive Board consisting of president, president-elect, vice president, secretary-treasurer, past president, and four directors.

Section 2. The Executive Board shall manage the affairs of the Society. It is empowered to promote the objectives of the Society by receiving and administering grants and cooperating with other organizations, agencies, and individuals and to act on all other matters for which specific provision is not made in the constitution and bylaws.

Section 3. The Executive Board is empowered to establish such standing committees as needed to conduct the affairs of the Society.

Section 4. The president is authorized to appoint such ad hoc committees as needed.

Section 5. The secretary-treasurer is empowered to collect dues as specified in the bylaws.

Article VI -- Elections

Section 1. Officers of the Society, with the exception of secretary-treasurer, shall be elected annually in accordance with the provisions of the following sections. The secretary-treasurer shall be appointed annually by the executive board.

Section 2. Nominations for officers shall be made by a presidential appointed committee consisting of three members not holding office. At least two members shall be placed in nomination for each office to be filled by the election.

Section 3. Nominations for officers may also be made by petition signed by 10 voting members.

Section 4. Election will be conducted by letter ballot sent to all voting members at least 30 days prior to the annual

That can be demonstrated in various ways as explained in the Constitution and Bylaws found in the Appendix to this Handbook.

There are three basic categories of membership in the Society.

A **Member** may be admitted by virtue of their educational background or by specialized experience. A minimum requirement is the Bachelors degree from an accredited college or University.

Student Members are full-time undergraduate or graduate students in a program that will allow them to advance to membership upon graduation.

International Membership for members from developing countries shall be from a qualifying list of developing countries as recognized by SWST. The member shall have the same requirements for membership as listed in Article II of the Constitution. These members only receive online material, no hard copies are mailed.

Annual Dues are required of all Members and Student Members:

Members	\$75.00 US	[\$40.00 if retired]
Students	\$25.00 US	
International Developing Member	\$15 US	
International Developing Student	\$5 US	

Membership applications may be obtained from the Executive Director, downloaded from the Society web site, or submitted online.

MEMBER SERVICE

ACCREDITATION

To foster excellence in higher education in wood science and technology, the Society serves as a professional accreditation organization for educational programs leading to a BS degree at institutions in the United States. Accredited institutions undergo a rigorous self-study and site visit by an Examining Committee at least once every decade, and must submit an interim update five years after accreditation. More information and the Society's standards for accreditation are found in "Accreditation Handbook: Standards and Procedures for Accreditation" (2003) available from the www.swst.org/accred.handbook.pdf. SWST began accrediting schools for their Wood Science and Technology programs in 1984. The following schools are accredited.

	Initial Accreditation	Most Recent Accreditation	Current Accreditation Expires
Mississippi State Univ., Mississippi State	1987	2007	2017
North Carolina	1984	2005	2015

(3) Encouraging policies and procedures which assure the wise use of wood and wood-based products. (4) Encouraging high standards for professional performance of wood scientists and technologists and acting as the professional organization for individuals who meet these standards. (5) Fostering education programs at all levels of wood science and technology and furthering the quality of such programs.

The assets of this Society will be dedicated to the pursuit of science, and will, under dissolution of the Society, be distributed to one or more scientific or professional organizations dedicated to scientific purposes.

Article III -- Membership

Section 1. Membership shall consist of professional members and student members.

Section 2. Only professional members shall be eligible to vote and hold elective office.

Section 3. A professional member shall: (a) hold a bachelors degree from an SWST-accredited program; or, (b) hold a bachelors or higher degree, or the equivalent, from a qualifying college or university within a discipline related to wood science and technology, and have met the education or experience requirements specified in the Bylaws.

Section 4. A student member shall be an undergraduate or graduate student in a qualified college, university, or scientific school as specified in the Bylaws.

Article IV -- Dues.

Dues shall be assessed annually as prescribed by the bylaws.

- 2) Clarity and completeness of the introductory section (30 points)
Objective
Introduction
General procedures
- 3) Conclusion, recognition and literature (20 points)
Conclusion that speaks to objective
Recognition of important assistance received
Command of literature
- 4) Clarity of exposition; i.e., understandable to those in other specialties (20 points)
- b. Committee chair will rank papers based on average score obtained from combining each member's scores.
- c. Each member re-review and rank the four papers with the highest combined scores.
- d. Combine review and select the first and second (if warranted) place papers and those for honorable mention (if any).
8. The chair will report the selection of the winning paper(s) to the President by 90 days prior to the SWST Annual Meeting.

CONSTITUTION OF SOCIETY OF WOOD SCIENCE AND TECHNOLOGY

Article I -- Name. The name of this Society shall be Society of Wood Science and Technology.

Article II -- Purpose and Objectives. The purpose of this Society is: (1) Developing and maintaining the unique body of knowledge distinctive to wood science and technology. (2) Encouraging the communication and use of this knowledge.

State University, Raleigh

AWARDS

Distinguished Service Award: This is the premier award given by the Society recognizing individuals for their distinguished service to the profession. The recipient is not required to be a Member but will have made unusually noteworthy contributions in any educational, technological, scientific or professional area related to Wood Science and Technology. This award may be given each year at the Annual Meeting and consists of a plaque, life membership in SWST, and an opportunity to address the Members. The criteria for selection and summary of procedures are found in the Appendix.

Past Recipients of the SWST Distinguished Service Award include:

1966	-Harry Tiemann	1993	-Robert W. Kennedy
1980	-Jim Bethel	1994	-William T. Nearn
1981	-George Garratt	1995	-Arno P. Schniewind
1982	-Alexis Panshin	1996	-E. Allen McGinnes
1983	-Herbert Mckean	1997	-Warren S. Thompson
	-Alfred Stamm	1998	-Everett L. Ellis
	-Fred Wangaard		-Steven A. Sinclair
	-Herbert Fleischer		(Posthumously)
	-Frank Kaufert	1999	-Richard J. Thomas
	-Fred Dickinson	2000	Otto Suchsland
1984	-George Marra	2001	-Thomas M. Maloney
1985	-John Haygreen	2002	-Frank C. Beall
1986	-Christen Skaar	2003	-James L. Bowyer
1987	-Peter Koch		-Elvin Choong
			(Posthumously)
1988	-Stanley Suddarth	2004	-Geza Ifju
			-Helmuth Resch
1989	-Robert L. Youngs	2005	Howard N. Rosen
1990	-Wilfred A. Cote	2006	Duane E. Lyon
		2007	A. William Boehner
1991	-Charles Berolzheimer		
1992	-Stephen B. Preston		

Fellows Award

Purpose: To recognize significant contributions to the wood science and technology profession and service to the Society by SWST members. The criteria for selection and summary of procedures are found in the Appendix.

Past Recipients of the SWST Fellows Award include:

2004	James L. Bowyer
	Robert L. Youngs
2005	J. David Barrett
	A. William Boehner

3. The first place award consists of the following:

- a. \$1000 to the author(s)
- b. A plaque to the sponsoring firm or institution
- c. Plaque(s) to the author(s)

The second place award, if warranted, will consist of plaque(s) to the author(s) and a plaque to the sponsoring firm or institution. Up to two other papers may be selected for honorable mention, for which the certificate(s) will be awarded.

4. Presentation of the awards will take place at the annual meeting.

5. The selection committee will be appointed by the President.

6. The selection committee will consist of at least three members, one of which will be designated the chair by the President. One member will be selected from each of the areas of the private sector, industry, government, and academia. A committee member with a paper being considered for an award, must abstain from voting on their paper.

7. Committee responsibilities are as follows:

- a. Individually "score" all papers in the volume using George Marra's judging criteria.

- 1) Research quality (30 points)
- Complexity of the problem
- Originality
- Impact on present knowledge of the subject

advance wood science and technology at the regional, national, or international area over a minimum of 15 year period.

C. "Promoting the Profession!"

An SWST member may be nominated for the membership rank of SWST Fellow by any other SWST voting member. The nomination will be reviewed by the Past President's Council. The Council will make recommendation to the Executive Board by March 1 of each year. Election to the rank of SWST Fellow will require a majority vote of the SWST Board of Directors.

All future DSA recipients can be considered for Fellow status, and all Past Presidents can be considered for Fellow status in the sixth year following their term of service (i.e., immediately after they rotate off the DSA Subcommittee.)

All nominations for the rank of SWST Fellow must be forwarded to the SWST Executive Director and must include a letter of nomination and a resume with SWST and wood science and technology professional contributions by the nominee. All members elected to the membership rank of SWST Fellow will be announced at the annual meeting and presented an appropriate plaque by the SWST president.

Approved 3/2003, amended 4/2005

GEORGE MARRA AWARD: CRITERIA AND PROCEDURES

1. Award recognizes excellence in research and writing.
2. Papers considered are those published in the four quarterly issues of one volume of Wood and Fiber Science.

 W. Ramsay Smith

George Marra Award: George Marra was a prominent member of the wood science community for many years and was President of the Society at his untimely death in 1983. George was a champion of quality in writing and this prestigious annual award recognizes excellence in research and writing within those papers published in each volume of *Wood and Fiber Science*. A plaque and \$1000 are given to the winners at the Annual Meeting. Guidelines and procedures for this award are found in the Appendix.

Past George Marra Award winners are [1] First Place, [2] Second Place, [HM] Honorable Mention:

- 1986 Kirk Nadler, Elvin Choong, David Wetzel; 17(3)
 1987 Michael Thurmond, Frank Woeste, David Green; 18(1)
 1988 Leslie Groom and Anton Polensek; 19(3)
 1989 Terrence E. Connors and Thomas E. McLain; 20(2)
 1990 [1] Philip Humphrey and Larry Ostman; 21(3)
 [2] Irving Sachs, Gary Myers, Gary Leatham; 21(4)
 1991 [1] M. P. Wolcott, F. A. Kamke, and D. A. Dillard; 22(4)
 [2] William T. Simpson and Yi-Fu Tan; 22(1)
 1992 [1] David W. Green and David E. Kretschmann; 23(3)
 [2] Steven E. Taylor and Donald A. Bender; 23(4)
 [HM] Michael L. Hoag and Robert L. Kraemer; 23(1)
 1993 [1] David E. Kretschmann and B. Alan Bendtsen; 24(2)
 [2] Charles B. Vick and Thomas E. Kuster; 24(1)
 [HM] Kelly LaFave and Rafik Y. Itani; 24(1)
 1994 [1] Chungping Dai and Paul Steiner; 25(4)
 [2] Jerrold Winandy and Jeffrey Morrell; 25(3)
 [HM] David Ritter, Robert Kroll, and Roland Gertjeansen; 25(2)
 1995 [1] M.P. Wolcott, F. A. Kamke, and D. A. Dillard; 26(4)
 [2] Paul A. Cooper and Dibyendu N. Roy; 26(3)
 1996 [1] Charles B. Vick, Klaus Richter, Bryan H. River, and Albert R. Fried, Jr.; 27(1)
 [2] Stan T. Lebow and Jeffrey J. Morrell; 27(2)
 [HM] Thomas D. Skaggs and Donald A. Bender; 27(3)
 1997 [1] Laurence Mott, Stephen M. Shaler, and Leslie H. Groom; 28(4)
 [2] Greg C. Foliente, Mahendra P. Singh, and J. Daniel Dolan; 28(1)
 [HM] Barbara L. Gartner; 28(1)
 1998 [1] John W. Stelmokas, Audrey G. Zink, and Joseph R. Loferski; 29(3)
 [2] Stefan Zauscher and Philip E. Humphrey; 29(1)
 [HM] Ying H. Chui and Chun Ni, 29(2)
 [HM] Dongjin Song and Simon Ellis, 29(4)

President introduces the Immediate Past President for introduction of awardee and presentation of award.

9. Awardee is permitted 15 minutes for remarks and provides copy of remarks to the Immediate Past President.

10. Immediate Past President provides (a) biosketch/documentation and (b) final draft of written remarks to W&FS editor for publication. Any further needs of the editor are to be satisfied by direct contact with awardee.

SWST FELLOW QUALIFICATIONS AND PROCEDURES FOR NOMINATION

Purpose: To recognize significant contributions to the wood science and technology profession and service to the Society by SWST members.

SWST Fellow Qualifications: The criteria for election to the distinction of SWST Fellow are significant contributions to the Society of Wood Science and Technology and the wood science and technology profession while being a voting member of SWST.

A. Significant contributions to the Society of Wood Science and Technology include activities that demonstrate continuing commitment and leadership to SWST. Leadership commitment should include some of the following; (1) Past president of SWST; (2) Election to SWST Board of Directors for two terms; or, (3) Numerous terms of service, including committee chair or SWST committees.

B. Significant professional accomplishments include refereed publications and professional presentations that

DISTINGUISHED SERVICE AWARD: CRITERIA AND PROCEDURES

1. At the beginning of each calendar year, nominations are sought by announcement in Newsletter, including the criteria and deadlines for nomination.

2. Nominees do not need to be SWST members. However, the petition for nomination must be endorsed by 10 SWST members in good standing. Nomination must be accompanied by documentation of the individual's contributions to the profession and a biosketch.

3. The Immediate Past President serves as chair of the screening committee (five most recent past presidents) to verify that the documentation is in order and to make recommendations for approval.

4. The screening committee prepares a ballot of all valid nominations with a summary of contributions and submits it to the Past Presidents Council (all past presidents) for a vote and ranking of nominees.

5. The results from the ballot are forwarded to the President by March 1 and copies of all documentation sent to the Executive Director.

6. The President submits the nomination to the Executive Board for a final decision.

7. The President (or by delegation, the Immediate Past President) informs the candidate of approval for the award and discusses the format of award presentation and remarks by awardee at the annual meeting.

8. At annual meeting during the award ceremonies, the

- 1999 [1] Paul Cooper, 30(4)
[2] Peter W. Lau and J. Dave Barrett, 30(3)
[HM] Yi-ru Chen, Elmer Schmidt, and Kurt Olson, 30(1)
- 2000 [1] Jhang, Jian and Perry N. Peralta, Volume 31(4)
[2] Chowdhury, Mohammed Jahangir and Philip E. Humphrey, 31(3)
- 2001 [1] Jun Zhang and D. Pascal Kamdem, Volume 32(3)
[2] Susan E. Anagnost, Richard E. Mark, Robert B. Hanna, Volume 32(1)
- 2002 [1] Chunping Dai, Volume 33(3)
[2] Taghi Tabarsa and Ying Hei Chui, Volume 33(2)
- 2003 [1] Lech Muszynski, Fenghu Wang, and Stephen Shaler, Volume 34(2)
[2] Elemer M. Lang, Laszlo Bejo, Jozsef Szalai, Zsolt Kovacs and R. Bruce Anderson, Volume 34(2)
[HM] Elemer M. Lang and Tamas Fodor, Volume 3(2)
- 2004 [1] **Balazs G. Zombori, Frederick A. Kamke, and Layne T. Watson, 35(1).**
[HM] David W. Green and James W. Evans, in 35(2).
[HM] Nicole M. Stark and Robert E. Rowlands, , 35(2)
- 2005 [1] Kate E. Semple, Ross B. Cunningham, and Philip D. Evans
[2] Chi-Leung So, Stan T. Lebow, Leslie H. Groom, and Timothy G. Rials
[HM] Siqun Wang, Paul M. Winistorfer, and Timothy M. Young
[HM] Balazs G. Zombori, Frederick A. Kamke, and Layne T. Watson
- 2006 [1] Sigurdur Ormarsson and Dave Cown
[2] Kathy L. Woo, Paul Watson, and Shawn D. Mansfield
[HM] Mohammed Jahangir A. Chowdhury and Philip Humphrey
[HM] Mohssine Moutee, Mario Fafard, Yves Fortin, Aziz Laghdir
- 2007 [1] John Nairn
[2] R. Cristian Neagu, E. Kristofer Gamstedt, and Mikael Lindstrom
[HM] Mohammed Jahangir A. Chowdhury and Philip E. Humphrey

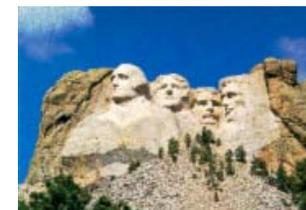

Student Poster Competition Award: One of the ways that the Society nurtures the next generation of wood scientists and technologists is the Student Poster Competition. Aimed at promoting and recognizing excellence in research and communication, this competition encourages Student Members to contribute posters to a technical session at the Annual Meeting. All participants receive complimentary registration to the Annual Meeting. The award consists of plaques and \$500 First Place, \$250 Second Place, and \$135 Third Place

Past winners of this competition include:

- 1995 First Place--Audimar P. Bangi, Clemson University
Second Place--Hung Chen, University of Minnesota
- 1996 First Place—Robert G. Schmidt, Virginia Tech
Second Place—Laura K. Brantley, Washington State University
- 1997 First Place--Stefan Zauscher, University of Wisconsin, Madison
Second Place--Anthony A.R. Lukindo, University of Minnesota
- 1998 First Place--Milan Sernek, University of Ljubljana, Slovenia
Second Place--Chris K. Andrews, University of Tennessee
- 1999 First Place- Alexander J. Salenikovich, Virginia Tech
Second Place-Fatima Moore Shmulsky, Mississippi State Univ.
- 2000 First Place - Shane O'Neill, University of Maine
Second Place- Sang Yeob Lee, University of Idaho
Honorable Mention- Marie P. Laborie, Virginia Tech
Honorable Mention- Jerone M. Gagliano, Virginia Tech
Honorable Mention- Nicole Robitaille-Brown, Virginia Tech
- 2001 First Place - Milan Sernek, Virginia Tech
Second Place - Thaddeus J. Ryan, Washington State University

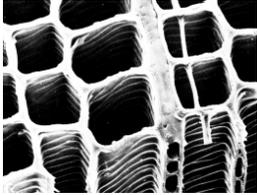

APPENDIX

SWST PRESIDENTS

- | | |
|------------------------------|----------------------------|
| 1958-59 James S. Bethel | 1983-84 Craig E. Schuler |
| 1959-60 Stephen B. Preston | 1984-85 Craig E. Schuler |
| 1960-61 James S. Bethel | 1985-86 Fred W. Taylor |
| 1961-62 Arthur F. Muschler | 1986-87 E. Allan McGinnes, |
| 1962-63 Robert L. Youngs | 1987-88 James L. Bowyer |
| 1963-64 Stephen B. Preston | 1988-89 J.D. Wellons |
| 1964-65 Fred F. Wangaard | 1989-90 Donald Arganbright |
| 1965-66 Eric L. Ellwood | 1990-91 James B. Wilson |
| 1966-67 Robert J. Hoyle, Jr. | 1991-92 Frank C. Beall |
| 1967-68 William T. Nearn | 1992-93 A. William Boehner |
| 1968-69 Ben A. Jayne | 1993-94 Paul Blankenhorn |
| 1969-70 John G. Haygreen | 1994-95 Howard N. Rosen |
| 1970-71 Fred L. Brown | 1995-96 Geza Ifju |
| 1971-72 Gilbert L. Comstock | 1996-97 Duane Lyon |
| 1972-73 Robert M. Kellogg | 1997-98 Frederick A. Kamke |
| 1973-74 Arno P. Schniewind | 1998-99 J. David Barrett |
| 1974-75 Albert N. Foulger | 1999-00 Thomas E. McLain |
| 1975-76 Eric A. Anderson | 2000-01 W. Ramsay Smith |
| 1976-77 Thomas M. Maloney | 2001-02 H. Michael Barnes |
| 1977-78 Erwin L. Schaffer | 2002-03 Robert W. Rice |
| 1978-79 Robert W. Erickson | 2003-04 Douglas Stokke |
| 1979-80 John H. Brown | 2004-05 Audrey Zink-Sharp |
| 1980-81 Helmuth Resch | 2005-06 Paul M. Smith |
| 1981-82 Richard J. Thomas | 2006-07 Douglas Gardner |
| 1982-83 Warren S. Thompson | 2007-08 James P. Armstrong |
| 1983 George G. Marra | |

many cases, the visiting scientist's organization has covered the entire cost of the visit.

- 2002 First Place -Iris Vazquez-Cooz, SUNY-ESF
Second Place - Patrick Rappold, SUNY-ESF
- 2003 First Place- B. B. Maruthi Sridhar,
Second Place Iris Vasquez-Cooz , SUNY-ESF
- 2004 First Place- Darren Reidlinger, Virginia Tech
Secomd Place- Jerome Alteyrac, Forintek
Third Place- Diogo Baptista, University of Maine
- 2005 First Place – Hermanus VanDyk, North Carolina State Univ.
Second Place – Suzana Radivojevic, Univ. of Toronto
Third Place – Sudip Chowdhury, Washington State Univ.
- 2006 First Place – Samuel Zelinka, University of Wisconsin
Second Place – Jinwu Wang, Washington State Univ.
Third Place – Emmanuel Kodzi, Purdue University
- 2007 First Place – Joseph Jakes, University of Wisconsin
Second Place – Zhiyuan Lin, VPI&SU
Third Place – Chris Gabrielli Oregon State University

ANNUAL CONVENTION

Each year the Members of the Society gather to conduct business, recognize members, and explore ways that the Members and the Society can be more successful and interact personally and professionally. The Convention is in North America in odd years and in an international venue in even years. The 2008 Convention will be held in Concepcion, Chile on November 10-12, 2008 at the Universidad del Bio Bio.

Recent Annual Meetings and Program Topics include:

- 1992 Charleston, SC *"An International Perspective of Wood Science and Technology and*

Issues Affecting Wood Utilization"

1993	Clearwater Beach, FL	<i>"The Environment Movement and Fiscal Influences on Wood Products Research"</i>
1994	Portland, ME	<i>"Sustainable Forest Products"</i>
1995	Portland, OR	<i>"Wood and Wood Products in the 21st Century"</i>
1996	Minneapolis, MN	<i>"Current Trends and Critical Issues Affecting the Forest Products Industry"</i>
1997	Vancouver, BC	<i>"Distance Learning and Technology Transfer for the 21st Century"</i>
1998	Merida, Mexico	<i>"Wood Products Industry in the 21st Century: Knowledge, Technology, and Workforce Training Needs"</i>
1999	Boise, ID	<i>"Roles of Wood Science and Technology in Forest Sustainability"</i>
2000	Lake Tahoe, NV	<i>"Material Changes in Residential Construction"</i>
2001	Baltimore, MD	<i>"Forest Products Education: Kids and Teachers"</i>
2002	Madison, WI	<i>"The State of the Profession: Reviewing our Accomplishments, Establishing our Breadth, Outlining our Future"</i>
2003	Bellevue, WA	<i>"Wood Science and Technology in the Biobased Economy"</i> <i>"Wood Characterization: Principles</i>

presentations have consistently won praise from the hosts, and the visitors have found their time to be stimulating and enjoyable.

In addition to providing a forum for discussions on wood, the Society expects the Program to create interest in careers in wood science and technology and to assist in improving existing educational programs in this area. We believe that bringing people together to discuss these problems benefits both the scientists and the participants.

Any member of the Society in good standing is eligible to be a Visiting Scientist. If you are not enrolled in this program please contact the Executive Director. Visiting Scientist Program application packets with the names and speaking topics of visitors are mailed to about 60 potential host institutions in the fall of each year.

The format of visits is arranged between the host institution and the visiting scientist. Generally, a visit is scheduled for one or two day's duration. During this time, the visitor gives a number of lectures or seminars and has discussions with individuals. The sessions may be highly technical or designed to acquaint broader non-specialist audiences with work in the field.

The Society places no restrictions on the visit, but does have two requirements. One is that the Society be acknowledged as a sponsor in any announcements or bulletins. The second is that the host institution and the scientist submit a brief report on the visit to the Visiting Scientist Committee.

SWST pays transportation costs of the scientist to and from the host institution. The host is responsible for all of the local costs. As a part of the request, the host institution is asked to provide some nominal direct contribution to the program. However, in

will be published in approximately the order in which the final version is received. Papers will be judged on the basis of their contribution of original data and ideas or interpretation of, or in the case of reviews, on their relevancy and completeness. Upon acceptance and publication by *Wood and Fiber Science*, a manuscript must not be published again in any form without written consent of both author(s) and editor.

Page charges are \$100 per page for SWST members and \$135 per page for non-members. Page charges may be estimated on the basis of 2.5 typed, double-spaced pages per printed Journal page. Charges for changes in the final proof will be billed to the author. Color figures will be billed to the author at \$400 for the first figure in the paper and \$250 for each subsequent figure.

For information on submissions, style and format, please refer to the SWST web page: <http://www.swst.org/authorChecklist.html>

Wood and Fiber Science is published quarterly in January, April, July and October. All dues-paying members receive a copy. International members from developing countries only receive online version.

SWST members have access to all full-text electronic versions of current and past *Wood and Fiber Science* issues, by signing in to the Members Login section of the SWST webpage.

VISITING SCIENTIST PROGRAM

The SWST Visiting Scientist Program is designed to facilitate interchange between outstanding specialists in wood science or technology and interested educational, industrial, or governmental organizations. Many of the foremost wood scientists in the Society have participated in the Program. Their

- and Applications*"
- 2004 Grand Rapids, MI "*Wood Science and Technology in the BioBased Economy*"
"Surface Chemistry & Wood Finishes"
- 2005 Quebec City, Canada "*Nanotechnology for the Forest Products Industry*"
"Understanding Standing Timber Properties to Improve Wood Quality"
"Wood Physics and Drying Fundamentals"
"Wood Modification"
- 2006 Newport Beach, CA "*Effect of Decay on the Performance of Wood Buildings Under Earthquake Loading and How We Might Improve Performance*"
"The Role of Utilization Research in Hazardous Fuels Reduction"

"Moisture in Wood: Problem for Housing and Wood Construction"
- 2007 Knoxville, TN "*Advanced Analytical Techniques for Wood and Biomass*"

COMMUNICATIONS

Publications:

- Bi-monthly **Member newsletter** is emailed to all current members and contains news of the Society, employment opportunities, features of interest to members and announcements.
- **Career and educational information** related to wood science and technology is available free or at a nominal cost. See specific details in the Appendix.
- **Proceedings** of Annual or Special Meetings are published to widely disseminate information to members, libraries, and others around the world.
- **Critical Issues and Position Papers** are developed by the Policy and Critical Issues Committee and published by the Society to assist academic, industrial and government leaders. SWST position statements are intended to provide science-based information to policy makers and the public at the national level, and to articulate reasoned opinions of the professional wood science and technology community on national and international issues of interest and expertise.

Those currently available from the Executive Director include:

- Gaining International Competitive Edge: A Need for Increased Research in Forest Products, 1990
- Wood Science and Technology: A Profession at a Critical Point in History, 1992.
- Environmental Implications of the Use of Wood-based Products, 1997
- Issue Brief 1: SWST Position on the Environmental Implications for the Use of Wood-Based Products, 1999
- National Need in Capacity for Forest Products Research and Development Policy Statement, 2003

--SWST Position on the Role and Opportunities of Wood Research in the USDA National Research Initiative, 2004

--SWST Position on the Use of Life Cycle Inventory Data and Assessment (LCI/LCA) to Reduce Environmental Burdens 2007

Information Sources for Members includes:

- *Annual Membership Directory* available online
- *Committee Handbook* distributed to all committee members and Society leaders
- *Member Handbook* available online.
- Society of Wood Science and Technology **Web Page**
Point your browser to **www.swst.org** for the latest information about the Society and current activities.

WOOD AND FIBER SCIENCE

Wood and Fiber Science is the official publication of the Society and publishes papers with both professional and technical content. Original papers of professional concern, or based on research of international interest dealing with the science, processing, and manufacture of wood and composite products of wood or wood fiber origin will be considered. All manuscripts are to be written in US English; the text should be proofread by a native speaker of English prior to submission. Any manuscript submitted must be unpublished work not being offered for publication elsewhere

Papers will be reviewed by referees selected by the editor and
